**- WORK ORDER -**

Date the work is ordered:

Name of the person ordering the work:

Contact phone number(s):

Contact address:

Address or location of the parcel:

Record source of the parcel (if known):

Required delivery date:

Anticipated closing date (if applicable):

Name and address of the borrower (if applicable):

Type of survey requested (see below):

(a) **Mortgage Inspection.** The sole purpose of this inspection is to obtain mortgage title insurance. This is the minimum service that your lender requires for closing your loan. It is a location of improvements and cursory check for violations or encroachments onto or from the subject property based on existing but not confirmed evidence. This does not constitute a boundary survey and is subject to any inaccuracies that a subsequent boundary survey may disclose; no property corners will be set; and, it should not be used or relied upon for the establishment of any fence, structure or other improvement. Flood plain certification is restricted to a review of the Flood Insurance Rate Maps (FIRM) (latest revision), and shall not be construed as a confirmation or denial of flooding potential.

(b) **Boundary survey** and improvement location. A boundary survey of the subject property will be made and the property corners will be located and verified or reset. The improvements on the property will be located and a check for violations or encroachments onto or from the subject property will be made. This survey may be used by the property owner for the construction of a fence or other improvement. Flood plain certification is restricted to a review of the Flood Insurance Rate Maps (FIRM) (latest revision), and shall not be construed as a confirmation or denial of flooding potential.

(c) **ALTA/ACSM** land title survey. This is the most comprehensive type of survey and improvement location. It covers all the aspects of the boundary survey and improvement location and identification for any additional evidence of possession or use which could be adverse to the interest of the purchaser. This survey may include definitive statements regarding the flooding potential in addition to a review of Flood Insurance Rate Maps (FIRM).
